YUHAI TECHNOLOGY & MANUFACTURING SUPPLIES PVT LTD

Professional Automatic Production line Solution Supplier
[Http://www.yuhai-tech.com](http://www.yuhai-tech.com)

Lean pipe series

Lean Pipe I mainly known for high efficiency, high degree of variability, simple, economic, environmental-friendly design concept. It is widely used in various industrial manufacturing fields.

It can make individual work-tables, and also the combination of many work-tables to make production conveyor lines.

Workshop equipments e.g. production line assemble stations, input material-tables, output material-tables, testing-tables and repair-tables etc.

Material Carts (General multi-layer material loading carts, the general material distribution carts, and temporary carts, specially designed carts for mobile and other manufacturing industries).

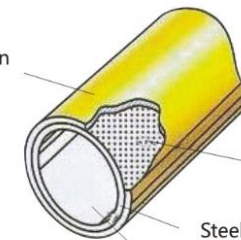

Traditional Racks with Multi-layer shelves can be made. It can also make advanced racks with FIFO system which are very light-weight. These racks can also use skate-rails that make the flow of materials very fast, make it efficient and cost-effective by reducing the manpower requirement.

Material Rack (Structures for the general materials placement, temporary frame structures).

Business applications (commodity display, personalized display shelf, creative display)

Other applications (white board frame, flower rack, items placed racks, shelves, and creative application)

Plastic resin

Adhesive

Steel pipe

Interior coating

Material	Steel tube with PE/ABS plastic layer
Type	●general●ESD●stainless steel
Color	White/beige/black/yellow/green/red/blue
Outside diameter	Φ28mm
Thickness	0.8mm , 1.0mm , 1.2m , It can be made according to customer's requirement
Specification	4000mm
Packing	10pcs/bundle

Company Introduction

YUHAI Technology & Manufacturing Supplies Pvt Ltd was established on 22nd Feb. 2017 all promoters of YUHAI have an extensive experience of more than 15 years in the field of "Static Electricity & ESD Control". Having served the industry with full commitment, we have developed ourselves as manufacturers and service providers of Production Lines. We are specialized in designing & Manufacturing of various types of Working Tables, Assembly Lines & Conveyor Lines etc. We provide various solutions for Lean Production, Material Handling, Material Storage, Logistics and Distribution etc.

We can design & Manufacture customized systems that are in accordance to the customers' requirements. Our products are widely used in Electronics, Automobile, Food-Processing, Pharmaceutical, Logistics & Courier, and Toys and have very good reputation among our customers.

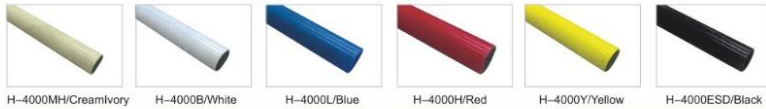

We follow our policy of "Guided by Customers Requirement with the intent of Refinement & Innovation". We focus on our products to help customers building intelligent factories and improve their core competitiveness.

Industrial aluminum alloy series

Corner Fittings:

Corner Fittings are used at the joining points of two sections and provide enough strength to the structure so it withstands for longer time. A correctly angled corner joint also helps maintaining a right position between two sections fitted with T-bolts and nuts and this position can also be adjusted by these corner joints.

Third generation lean pipe & parts

Third Generation Lean Pipe:

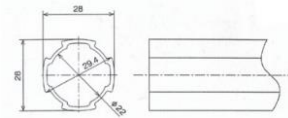

The Third Generation Lean Pipe, made of silver colour aluminium, has its surface treated by anodic oxidation and so is permanently rust-proof. All connectors and fasteners for these pipes have been improved a lot and are now very advanced. They are made by pressure casting aluminium which is harder and stronger.

Special Features:

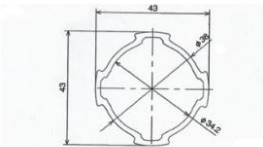

- 1) Easy to assemble
- 2) Elegant appearance
- 3) Environmental-friendly
- 4) Diameter 28mm cross-symmetry dovetail groove structure

Name: Aluminium tube
 P/N: T3-AL2812/T3-AL2817
 Material: 6063-T5(surface oxidation spray with white sand)
 Standard length: 4m/pcs
 Weight: 0.38kg/m (T=1.2mm)
 0.42kg/m (T=1.7mm)

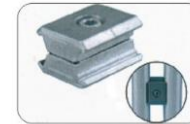

Name: Aluminium tube(big)
 Material: 6063-T5 (Surface oxidation spray with white sand)

Aluminium slide way series

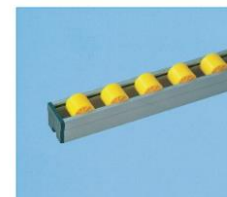

Slide Way (Skate-rail) is used to make transportation carts & storage carts e.g. FIFO racks. It is very easy to install on the carts and makes the carts highly efficient in terms of materials movement. Aluminium Slide-way is constructed by aluminium alloy frame-work, ABS wheels, ABS separation bar, steel roller shaft and the cover plate at both ends.

Special Features:

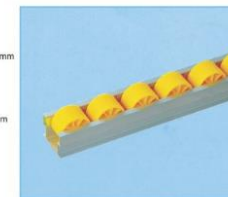

- 1) Small Friction Coefficient
- 2) Smart Looking
- 3) Very Strong
- 4) Shock Resistant
- 5) Long Service Life

Aluminium slide way SQ-41A
Aluminium framework (W*H): 41mm* 35mm
Total height(include wheel): 38.5mm
ABS roller : φ28*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 30mm,45mm,60mm
Quantity : 33pcs , 22pcs , 16pcs/meter
Workload of single roller shaft : 10kg
Workload of each meter : 100kg

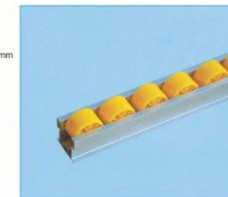

Aluminium slide way SQ-41B
Aluminium framework (W*H): 41mm* 35mm
Total height(include wheel): 42.5mm
ABS roller : φ28*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 30mm,45mm,60mm
Quantity : 33pcs , 22pcs , 16pcs/meter
Workload of single roller shaft : 10kg
Workload of each meter : 100kg

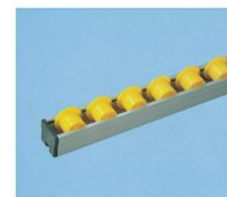

Aluminium slide way SQ-44A
Aluminium framework (W*H): 44mm* 33mm
Total height(include wheel): 40mm
ABS roller : φ38*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 45mm
Quantity : 22pcs/meter
Workload of single roller shaft : 20kg
Workload of each meter : 80kg

Aluminium slide way SQ-41A
Aluminium framework (W*H): 41mm* 35mm
Total height(include wheel): 38.5mm
ABS roller : φ38* 28*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 45mm , 60mm
Quantity : 22pcs,16pcs/meter
Workload of single roller shaft : 10kg
Workload of each meter : 100kg

Aluminium slide way SQ-44B
Aluminium framework (W*H): 44mm* 38mm
Total height(include wheel): 48mm
ABS roller : φ38*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 45mm
Quantity : 22pcs/meter
Workload of single roller shaft : 20kg
Workload of each meter : 80kg

Aluminium slide way SQ-41B
Aluminium framework (W*H): 41mm* 35mm
Total height(include wheel): 42.5mm
ABS roller : φ38* 28*25mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 45mm , 60mm
Quantity : 22pcs,16pcs/meter
Workload of single roller shaft : 10kg
Workload of each meter : 100kg

Aluminium slide way SQ-38
Aluminium framework (W*H): 30mm*22mm
Total height(include wheel): 24mm
ABS roller : φ13*14mm
Roller shaft : 45# Galvanization steel
Distance of roller shaft : 15mm,30mm
Quantity : 66pcs,23pcs/meter
Workload of single roller shaft : 4kg
Workload of each meter : 80kg

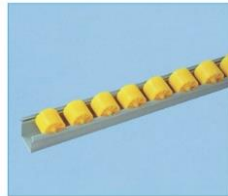

Metal plate slide way series

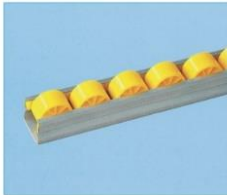

Metal plate slide way is made by galvanization steel go through automatic punching line, precise numerical control Cold formed steel rolling production to form a U shape framework. Assembly with ABS roller and steel roller shaft.

Special Feature:

- 1) Sustain Heavy Load
- 2) Complete Size
- 3) Wild Range Application
- 4) Easy to assemble
- 5) Low cost
- 6) Very strong

Metal plate slide way SQ-40
 Galvanization steel framework (W*H): 41mm*26mm
 Total height include wheel: 38mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ28*25mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 35mm 45mm
 Quantity: 28pcs, 22pcs/meter
 Workload of single roller shaft: 6kg
 Workload of each meter: 80kg

Metal plate slide way SQ-44
 Framework (W*H): 44mm*33mm
 Total height include wheel: 44mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ38*25mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 45mm
 Quantity: 22pcs/meter
 Workload of single roller shaft: 20kg
 Workload of each meter: 80kg

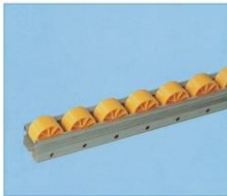

40 Metal plate slide way SQ-48
 Framework (W*H): 40mm*33mm
 Total height include wheel: 45mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ32*22.5mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 36mm
 Quantity: 28pcs/meter
 Workload of single roller shaft: 10kg
 Workload of each meter: 100kg

40 Metal plate slide way SQ-48
 Framework (W*H): 40mm*33mm
 Total height include wheel: 47mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ38*22.5mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 45mm
 Quantity: 22pcs/meter
 Workload of single roller shaft: 10kg
 Workload of each meter: 100kg

60 Metal plate slide way SQ-48
 Framework (W*H): 60mm*33mm
 Total height include wheel: 44mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ30*42mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 36mm
 Quantity: 28pcs/meter
 Workload of single roller shaft: 30kg
 Workload of each meter: 300kg

60 Metal plate slide way SQ-8
 Framework (W*H): 60mm*25mm
 Total height include wheel: 30mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ15*42mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 16mm
 Quantity: 62pcs/meter
 Workload of single roller shaft: 20kg
 Workload of each meter: 20kg

85 Metal plate slide way
 Framework (W*H): 85mm*33mm
 Total height include wheel: 50mm
 Thickness of galvanization steel: 0.8mm, 1.2mm
 ABS roller: φ45*55mm
 Roller shaft: 45# Galvanization steel
 Distance of roller shaft: 50mm
 Quantity: 20pcs/meter
 Workload of single roller shaft: 60kg
 Workload of each meter: 800kg

1.0*1.0*2	Green/black			
1.2*1.0*2	Green/black			

Dual Layer Table Mat is designed to eliminate Electro-static charges from personnel, tote boxes, bags, components etc. It is flat and not curled and is not affected by humidity. It has superior resistance to abrasion, chemicals and heat and is easy to clean & maintain.

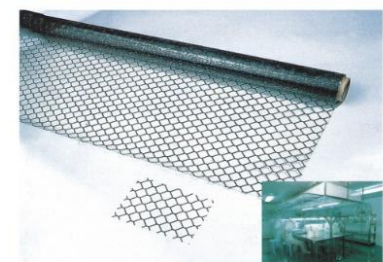

Anti-static anti-fatigue floor mat

Material : Surface layer made of PVC ,medium layer made of EPDM

Using process/site
Used inn partial areas in both anti-static and non anti-static environments where several working tables or conveyor lines are in place.
Suitable for re-construction of anti-static area (especially floor), it is an economic and affective anti-static measure.
Suitable for use in long-time standing job positions.

Anti-static curtain

Resistant to fire,block off static and ultraviol

Size: 1.37m*30m*0.3mm
1.37m*25m*0.3mm
Material: PVC
Feature:
dim surface 10⁷-10⁸Ω grid surface 10⁴-10⁹Ω
Using process/site :
Prevent static, used in no-dust room.

Sole cleaning machine

YUHAI sole cleaning Machine uses an advanced brush technique and has water-recycle system. It cleans the dust from shoe sole very quickly when the personnel walk through the machine. It is very effective, efficient and so suitable for clean-room applications. It is a very sturdy system and works for long time. It can be installed at every entrance so it restricts the dust entry and protects shop-floor environment. YUHAI sole-cleaning machine is suitable for Automobile, electronics, Pharmaceuticals medicines, food-processing industries and all other clean-room applications. We can customize these machines according to customer's requirements also.

Special Features:

- 1.) Intelligent Work
- 2.) Automatic Sensors
- 3.) Energy Saving
- 4.) Customized Designs

tailor-make carbon fiber compounded wool

360° no dead corner intelligent interaction

super water-absorbing foam

ESD access control system

Item	Description
Gate	304# stainless steel case, Machine core, Control board, Led Module
Power	AC220V input; DC24V, DC12V output(inside)
Driving method	Solenoid valve/motor
Direction	One way/double way (can be chosen)
Size	1200mm(length)*280mm(width)*980mm(height)
Pass width	500-600mm
Gate period	0.25(not include test time) 2s-5s(include test time)
signal	LED pass light
working environment	inside, outside(suggest cover)
working temperature	-10°C~60°C, relative humidity5%-95%
Life time	10 years
weight	65kg
data interface	RS485 or RS232
control interface	TTL level signal or relay switch signal
OS	Chinese OS
Range	Test wrist range : 750KΩ-10MΩ Test ESD shoes range : 100KΩ-100MΩ(adjusted)

Dual footwear/wrist strap tester

Can test the ESD wrist strap and ESD shoes's anti static function
Test wrist Range:750KΩ - 10MΩ
Test ESD shoes Range:100KΩ - 100MΩ

Ground system line monitor

Continuous monitor of one or two wrist straps. Manual or auto switch on available. Automatic alarm function.

Surface resistance tester

This tester can test the conductive, dissipative and insulate surface resistance.
Range: 10¹-10¹⁰Ω
Tolerance ±10%

Electrostatic ionizing air blowers

Quickly neutralizes the static charge. Suitable for electronics manufacturing & other applications (e.g. Mobile Manufacturing); fast static removal time and stable ion-balance.
Discharge time: <1s
Ion balance: 0±10V

Human body grounding system

Dual coiled cord metal wrist strap

Single coiled cord metal wrist strap
